

This Period Activities

Planned

Activity	Result	Status
Course maintenance end August	For thatch removal, relieve compaction and encourage deep, healthy rooting of the grass.	Completed
Patching bare/poor areas on greens	For denser, smother playing surfaces	On-going
Sorting out levels of sand in bunkers	To make better playability	Always on-going
Cutting back of the long rough	To thin the grass sward out and avoid slow play from golfers looking for their ball	On-going
Set mole traps	Less damage of mole hills	On-going
Divoting fairways when time allows	Aid recovery of fairways	On-going
Sorting Irrigation leakage at 16 th Tee box	To stop leak (Warranty work carried out by TIS)	Completed
Strimmed ditch floor at the 4th	For vision to find golf balls	Completed

Next Period Tasks

Screening of soil around sheds, Alan Whiteford.

Moving of 7th winter tee mat to new location that was shown at the course walk.

Investigate further the former Polinar Dam pipework and underground water storage.

Monitor mole activity.

Add the final 3 holes to the practice course making it 9 holes at the practice area, * Don't think this will be possible this season as the cut down long grass is still very weak.

Divoting of fairways.
